Core Skills

Front-End

HTML5, CSS3, Bootstrap · Responsive & Accessible Design · Cross-Browser Testing · Performance Optimization

WordPress & CMS

Block Themes, Elementor, WP-CLI · WP Engine Hosting & Migrations · Shopify · Joomla (Legacy)

AI & Automation

Claude Code · Multi-Agent Orchestration · MCP · Playwright Automation · AI QA/Verification · Prompt & Agent Design

AI-Assisted Delivery

React (Vite + TypeScript), Node.js, Python · AI-Assisted Pipeline · Compile Checks & Visual-Parity QA

UI & Graphic Design

Figma, Relume, Google Stitch · Photoshop, Illustrator, InDesign, Lightroom · Premiere Pro, After Effects

Marketing & Ops

SEO/SEM · Email Marketing & Deliverability · Google Workspace Administration · Domain/DNS & Hosting · CRM Administration

Education

BS Computer Science

Central Visayas Polytechnic College
Dumaguete City, Philippines · 2001
Vice-Chairman, Exec. Committee on IT

Languages

English · Filipino (Tagalog)

Chris Dave Magahis

Front-End Developer

WordPress · AI-Augmented Development · Graphic Design

// Summary

Front-end developer and designer with 20+ years of experience building user-centric, high-performing websites for e-commerce, agency, and consultancy clients across the Philippines, the UAE, and the US. Hand-codes semantic, responsive HTML/CSS and manages WordPress portfolios on WP Engine. Most recently designed and built a multi-agent AI development system that automates site analysis, design, WordPress builds, and QA — two decades of craft paired with modern AI engineering.

// Experience

WordPress Developer — Thunderbolt Group

Nov 2024 – Present

Colorado, USA · Remote · Full-Time · thunderboltgroup.com

Colorado digital-marketing agency serving startups to Fortune 100 — deep behavioral-health, legal, and healthcare expertise.

- Manage the agency's portfolio of client WordPress sites end to end — maintenance, plugin/theme updates, backups, security, and uptime/performance monitoring on WP Engine.
- Build, add, and update pages across client sites (Elementor, Divi, Gutenberg block themes), keeping every change on-brand and content-accurate.
- Support SEO, PPC, and content campaigns on the dev side — conversion landing pages, on-page SEO, and blog publishing through a staged dev-review → production workflow.
- Designed and built **the agency's project-management application** as a custom WordPress plugin — Kanban boards, members, activity log, time tracking, and end-of-day reports on a 50-endpoint REST API (custom post types, PHP 8), served as a standalone full-page app that bypasses the theme and page builder entirely.

AI ENGINEERING & AUTOMATION

- Designed and built **"Devy," a multi-agent AI web-development system** on Claude Code, orchestrating 8+ specialist agents (scraping, design, WordPress & React builds, QA) from intake to deployed build.
- Engineered **deterministic QA gates for AI-generated builds**: pixel-diff visual parity (≥98% per breakpoint), scripted content-fidelity diffs, and computed-style verification of animations and effects.
- Built an **exact site-cloning pipeline** that captures rendered HTML, CSS, assets, and motion from any platform (Squarespace, Elementor, Divi) and reproduces it as a native WordPress block theme.
- Packaged the fleet as a **versioned internal Claude Code plugin** (private GitHub marketplace) so teammates run the same tooling with one command, integrated with production systems via **MCP** — Playwright, Google Ads/GA4, Drive, Figma, and Clarity.
- Shipped AI agents for **SEO and PPC operations** — a 15-agent SEO analysis suite and an industry-agnostic Google Ads negative-keyword auditor — plus an AI-assisted blog-publishing workflow with a human-approval gate.

Front-End Developer — PinnacleCart

Jan 2026 – Present

Golden, CO, USA · Remote · pinnaclecart.com · Project-Based

- Project work done **outside my full-time hours at Thunderbolt Group** — building conversion-focused, mobile-responsive storefront templates in hand-coded HTML, CSS, and Bootstrap on the PinnacleCart eCommerce platform.

Front-End Developer — PinnacleCart

Dec 2022 – Nov 2024

Golden, CO, USA · Remote · pinnaclecart.com

All-in-one eCommerce platform (475+ features) for growth-focused SMBs.

- Re-themed and upgraded merchant storefronts to the latest cart version** — migrating live stores off legacy themes onto current, mobile-responsive templates without losing catalog, customers, or traffic.
- Hand-coded semantic HTML, CSS, and Bootstrap to translate mockups into responsive, pixel-accurate pages; optimized CSS to cut file sizes and eliminate render-blocking resources.
- Redesigned and built conversion-focused storefronts for merchants across industrial supply, e-commerce, and retail — from redesigns of existing stores to new builds from scratch.
- Managed multiple WordPress sites on WP Engine — migrations, backup/restore drills, uptime, and performance — with minimal disruption to live traffic.

Web & Graphic Designer — Montreal Management Consultants

Oct 2015 – Oct 2022

Dubai, UAE · On-site · mmce.ae

- Managed the company website end to end — concept to final product — with cross-browser, multi-resolution testing; configured hosting, domains, and Google Workspace.
- Designed corporate identity systems (logos, letterhead, business cards) and full marketing packages — brochures, banners, posters, print — plus original social-media graphics; administered SugarCRM and Apptivo.

Web & Graphic Designer — Fabyulos

Feb 2019 – Jun 2021

Remote · fabyulos.com · Freelance

- Designed and developed a Shopify e-commerce store (jersey apparel); set up hosting, domains, and email, managed the product catalog, and linked the store to Facebook Shops.

EARLIER EXPERIENCE

Web & Graphic Designer — We Buy Your Property

2013 – 2015

Dubai, UAE · On-site

CMS websites on WordPress and Joomla, corporate branding, vtiger CRM administration, and daily email/SMS campaigns end to end.

Web & Graphic Designer — South Travel & Tourism

2007 – 2013

Dubai, UAE · On-site

Site performance and landing pages, SEO/SEM traffic growth, and email campaigns for a long-running Dubai travel agency.

Web Designer — South East Asia Tours

2004 – 2007

Sharjah, UAE · On-site

Designed and deployed 15+ hand-coded hotel-booking websites; set the design guidelines, templates, and file-structure standards.
